## CURRENT LITERATURE

SELECTED REFERENCES COMPILED BY THE STAFF OF THE BUREAU OF ENTOMOLOGY AND PLANT QUARANTINE  
LIBRARY FROM PUBLICATIONS RECEIVED IN THE LIBRARY OF THE UNITED STATES  
DEPARTMENT OF AGRICULTURE, WASHINGTON, D. C.

Vol. 11

Jan. - Feb. 1942

No. 1

REMEMBER PEARL HARBOR

This list is confined to new books on entomology and to selected periodical literature relating chiefly to economic entomology. Publications of the U. S. Department of Agriculture and of the state experiment stations are omitted as a printed Monthly List of Publications is issued by the Office of Information, and a mimeographed list of State Experiment Station Publications by the Office of Experiment Stations. Publications of the state extension services, and all articles by members of the department staff in outside publications, are not included as they are issued monthly in Agricultural Library Notes. The contents of the Journal of Economic Entomology have also been omitted because nearly all the technical workers have access to it. Periodical references to apiculture are not included.

### BOOKS

Alden, C. H.

Apple insects and diseases. 38p. illus. Atlanta, Ga., 1942.  
(Ga. Dept. ent. Bul. no.83)

American Association of Textile Chemists and Colorists.

1941 year book ... Volume XVIII. 762p. New York City, Howes publishing co., inc., 1941. Partial contents.- Tentative method of test for resistance of fabrics and yarns to insect pests, p.269-271; Tentative method of test for evaluation of compounds designed to increase the resistance of fabrics and yarns to insect pests, p.271-274.

California. Department of Agriculture. Bureau of Chemistry.  
Economic poisons, 1940-1941. 109p. Sacramento, Printed in California  
state printing office, George H. Moore, State printer, 1941. (Spec.  
pub. no.187)

Cockerell, T. D. A.

Bees of the family Hylaeidae from the Ethiopian region. 15p. City  
of Washington, 1942. (Smithsn. inst. Misc. collect. v.101, no.8)

Cristóbal, U. L.

Instrucciones para combatir el "Gusano de las pomáceas" (Cydia (Carpocapsa) pomonella Linné). 7, [1]p. illus. Buenos Aires, 1940.  
(Argentina. Min. de agr. Dir. de propag. y pub. Pub. misc. no.81)

Dobzhansky, T.

Beetles of the genus *Hyperaspis* inhabiting the United States. 94p.  
illus. City of Washington, Dec.31, 1941. Literature cited,  
p.90-92. (Smithsn. inst. Misc. collect. v.101, no.6 [Pub. 3642])

East Malling Research Station.

Annual report (twenty-eighth year) 1940... 96p. illus. [London  
and Ashford, Kent, Headley brothers], 1941. Partial contents.-  
General review of research work with lists of papers published  
during the year. VI. Entomology, by A. M. Massee and R. M. Greenslade,  
p.25-26; VII. Insecticides and fungi, p.26-28; Beakbane, A. B., Thompson, E. C., and Tydeman, H. M. Preliminary selection  
of apple rootstocks immune from woolly aphis based on certain  
anatomical differences in root structure, p.32-36, illus.  
References, p.36; Massee, A. M. Notes on some interesting insects  
observed in 1940, p.61-65; Greenslade, R. M. Strawberry aphis  
[*Capitophorus fragariae* Theob.] and the weather in 1940, p.65-66;  
The black currant leaf midge *Dasyneura tetensi* (Rübs.), p.66-71,  
illus. References, p.71; Shaw, H., and Steer, W. Dinitrocresol  
and other dual purpose winter washes, p.72-75. References, p.75;  
Steer, W., and Moore, M. H. Spray damage and apple capsid  
[*Plesicoris rugicollis*] control by winter petroleum, p.76-81.  
References, p.81; Massee, A. M., and Greenslade, R. M. Work at  
East Malling on the control of the strawberry aphis [*Capitophorus*  
*fragariae*], p.92-94, illus. References, p.94; The control of  
the hop red spider, p.94.

Goodnight, C. J., and Goodnight, M. L.

The genus *Protolophus* (Phalangida). 7p. illus. New York City,  
Published by the American museum of natural history, 1942.  
(Amer. mus. novitates no.1157)

Lennox, F. G.

Studies of the physiology and toxicology of blowflies. 8. Rate of  
ammonia production by larvae of *Lucilia cuprina* and its distribution  
in this insect. 9. The enzymes responsible for ammonia production  
by larvae of *Lucilia cuprina*. 64p. illus. Melbourne, 1941.  
References, p.63-64. (Austral. Council sci. & indus. res. Pam.  
no.109) Processed.

Levi, W. M.

The pigeon. 512p. illus. Columbia, S. C., R. L. Bryan company, 1941. (p.314-327. External parasites.)

Naude, T. J., Ripley, L. B., and Petty, B. K.

Wattle bagworm control by aeroplane dusting. 12p. Pretoria, Printed in the Union of South Africa by the Government printer, 1939. (So. Africa. Dept. agr. and forestry. Sci. bul. no.206 [Plant indus. ser. no.52])

Schenkling, S.

Coleopterorum catalogus auspiciis et auxilio W. Junk editus a S. Schenkling. Pars 169. 's-Gravenhage, W. Junk, 1940. Contents.- Heikertinger, F., and Csiki, E. Chrysomelidae; Halticinae II. p.337-635.

Shafik, M.

A study of some mixed fumigants suitable for the control of stored products insects. 160p. Bulâq, Cairo, Govt. press, 1938. [Bibliography], p.142-160. (Recd. Jan.31, 1942.)

Ward, G. M.

Nicotine; a product of tobacco. 21p. Ottawa, Canada, 1941. References, p.18-21. (Canada. Dept. agr. Pub. 730. Also Tech. bul. 38)

#### PERIODICALS

Agricultural engineering ([St. Joseph, Mich.]), v.23, no.2, Feb. 1942.

Gui, H. L., Porter, L. C., and Prideaux, G. F. Response of insects to color, intensity, and distribution of light, p.51-58, illus.

Agriculture; the journal of the Ministry of agriculture, Great Britain (London), v.48, no.3, Dec. 1941.

wireworms and newly ploughed grassland. Suggestions in respect of cropping, p.172-176.

# ENTOMOLOGY

## CURRENT LITERATURE

SELECTED REFERENCES COMPILED BY THE STAFF OF THE BUREAU OF ENTOMOLOGY AND PLANT QUARANTINE  
LIBRARY FROM PUBLICATIONS RECEIVED IN THE LIBRARY OF THE UNITED STATES  
DEPARTMENT OF AGRICULTURE, WASHINGTON, D. C.

Vol. 11

Mar. - Apr. 1942

No. 2

This list is confined to new books on entomology and to selected periodical literature relating chiefly to economic entomology. Publications of the U. S. Department of Agriculture and of state experiment stations are omitted from this list because they are included in Monthly List of Publications, issued by the Office of Information, and in List of Station Publications, issued monthly by the Office of Experiment Stations. Publications of the state extension services, and all articles by members of the Department staff in outside publications are excluded; they are listed monthly in Agricultural Library Notes. The contents of the Journal of Economic Entomology have also been omitted because nearly all the technical workers receive personal copies. Periodical references to apiculture are not included.

Alameda County, California. Mosquito Abatement District.  
Annual report for 1941. 29p. illus. Oakland, Calif., [1942].  
Processed.

Canada. Department of Trade and Commerce. Dominion Bureau of Statistics.  
Census of Industry. General Manufactures Branch.  
Report on the artificial and real silk industry in Canada, 1940. 17p.  
Ottawa, 1942. Processed.

Dillon, L. S., and Dillon, E. S.  
The tribe Monochamini in the western hemisphere (Coleoptera: Cerambycidae). 135p. illus. Reading, Pa., 1941. (Reading pub. mus.  
and art gallery. Sci. pub. no.1)

Felt, E.P.  
Our shade trees. Ed. 2. 316p. illus. New York, Orange Judd publishing co., inc., 1942. Useful books on trees and shrubs, p. 310-312. (Control of insects and diseases, p. 290-309).

Florida State Horticultural Society.

Proceedings of the fifty-fourth annual meeting of the Florida state horticultural society and affiliates held at Orlando, Florida, April 15th, 16th and 17th, 1941. 172p. illus. Bartow, Florida, Published by the Society, [1941]. Partial contents.- Thompson, W.L. The present status of scale insects infesting citrus, p.37-42. Literature cited, p.43.

Hayes, H. K., and Immer, F. R.

Methods of plant breeding. First ed. 432p. illus. New York and London, McGraw-Hill book company, inc., 1942. Literature citations, p. 381-400. Partial contents.- Chapter VIII. Breeding for disease and insect resistance, p. 113-128.

Isely, D.

Methods of insect control. Part II. Third ed. rev. 135 leaves Minneapolis, Minn., Burgess publishing co., [c.1942]. Literature at ends of chapters. Processed.

Jellison, W. L., and Good, N. E.

Index to the literature of Siphonaptera of North America. 193p. Washington, U. S. Government printing office, 1942. Bibliography, p.164-182. (U. S. Pub. health serv. Natl. inst. health Bul. no. 178)

Laurie, A., and Ries, V. H.

Floriculture; fundamentals and practices. First ed. 496p. illus. New York and London, McGraw-Hill book company, inc., 1942. Partial contents.- Chapter XVIII. Insect pests and plant diseases, p.417-442. Bibliography, p.442.

Lizer y Trelles, C. A.

Insectos y otros enemigos de la quinta. 214p. Buenos Aires, Editorial Sudamericana, 1941. At head of title: Enciclopedia agropecuaria argentina.

López Cristóbal, U.

"Gusanos blancos" de las sementeras. Ensayos de orientación para conocer la etología de Dyscinetus gagates Burmeister. 3p. illus. La Plata, 1941. Bibliografía, p.3. Processed. (La Plata Univ. nac. Facultad de agron. Bol. no. 6)

Michigan. Department of Agriculture.

Annual report of white pine blister rust control, calendar year 1941, by John K. Kroeber... Michigan Department of agriculture cooperating with United States Department of agriculture, Bureau of entomology and plant quarantine and [others]. 34 leaves. [n.p., 1942] Processed.

Needham, J. G.

About ourselves; a survey of human nature from the zoological viewpoint. 276p. illus. Lancaster, Penn., The Jaques Cattell press, 1941

Oregon State Horticultural Society.

Thirty-third annual report. Fifty-sixth annual meeting ... Eugene, Oregon, December 10-11, 1941. 142p. illus. Corvallis, Oregon, Published by the Gazette Times, [1942]. Partial contents.- Jones, S. C. Some things overlooked in cherry fruit-fly control, p.53-55; Gray, K. W., Thompson, B. G., and Morrison, H. E. A report of studies on the control of the garden slug, the synphylid, and the 12-spotted cucumber beetle, p. [66]-68. Discussion, p.68-69; Thompson, B. G. The filbert worm problem, p.[127]. Discussion, p.[127]-128.

Pacific Science Congress. 6th, Berkeley, Calif., 1939.

Proceedings ... Volume V. 1016p. illus. Berkeley and Los Angeles, University of California press, 1942. Includes bibliographies. Partial contents.- Davis, G. E. Ticks and relapsing fever in the United States, p.79-82. References, p. 82; Wheeler, C. M. Relapsing fever in California, p. 83-87, illus. References, p.87; Sellards, A. W. The introduction of mass vaccination for the control of yellow fever, p. 89-95. References, p.95; Bauer, J. H. Recent advances in yellow fever research, p. 97-107. Bibliography, p.107; Suárez, P. A. Plague in the province of Chimborazo, Ecuador, p.115-123; Mail, G. A., and Holland, G. P. Siphonaptera of western Canada in relation to sylvatic plague, p.125-128. References, p.128; Martinez, L. J. Plague in the city of Ambato, Ecuador, p. 139-143; Simmons, J. S. The insect transmission of neurotropic viruses, p.181-189. Bibliography, p. 188-189; Rosenbusch, F. Equine encephalomyelitis in the Argentine in its experimental aspects, p.209-214. Bibliography, p.214; Feenster, R. F. The eastern virus of equine encephalomyelitis as a cause of human disease in Massachusetts, p. 221-227. References, p.227; Eskey, C. R. The evolution of plague in fleas illustrated by photomicrographs, p.451-455; Park, C. L. The relation between geographical distribution, and climatic factors, and spread of plague, cholera, and smallpox, p.497-518; illus. References, p. p.518; Talice, R. V. Chagas' disease in Uruguay, p.525; Gibbons, R. J. Rocky Mountain spotted fever in Canada, p.573-576; Davis, G. E. The Rocky Mountain spotted fever, Rickettsia in the tick genus Ornithodoros, p. 577-579. References, p.579; Philip, C. B. Rocky Mountain spotted fever; known and potential tick vectors in the United States, p.581-584. Partial bibliography, p.584; Spink, W. W. Rocky Mountain spotted fever in Minnesota, p.585-588. References, p.588; Parker, R. R. Rocky Mountain spotted fever; results of fifteen years' prophylactic vaccination, p.589-596. [Dermacentor Andersoni, vector]; Lépine, P. Les fièvres du groupe des typhus en Indochine Française, p. 629-632. References, p. p.632; Kouwenaar, W., and Wolff, J. W. Rickettsia infections in Sumatra, p.633-637. References, p.637. [Trombicula deliensis]; Morishita, K. Tsutsugamushi disease: its epidemiology in Formosa, p.639-647. References, p.647. [Trombicula akamushi (Brumpt), vector]; Macchiavello, A. Investigations of Chilean exanthematic typhus and experimental exanthematous typhus, p.649-675. References, p.670-671. [Lice, vectors]; Mazza, S. Louse-borne typhus in

Pacific Science Congress (continued)

the Argentine Republic, p.677-678; Gunther, C. E. M. Endemic typhus in New Guinea: its occurrence and probable vector [*Trombicula minor* Berlese], p.715-724. References, p.724; Rocha Lima, H. da. Diseases of the typhus group in South America, p.737-743. References, p.743; Derrick, E. H., and Burnet, F. M. Q fever, p.745-752. References, p.752. [*Haemaphysalis humerosa* Warburton and Nuttall, vector?]; Magalhães, O. de. Transmitting agents of Brazilian spotted fever (exanthematous typhus of Brazil), p.755. [*Amblyomma cajennense*, etc.]; Patiño-Camargo, L. A new focus of Bartonellosis of the coasts of the Pacific, p.757-764, illus. [*Pediculus humanis*, vector?]; Ford, W. W., and Eliot, C. P. Bartonella infections, p.765-771. Bibliography, p.771. [Insect transmission, p.768-769]; Moral, J. D. Bartonella infections in the republic of Ecuador, p.773-774. [Vector, *Phlebotomi*]; Hertig, M. *Phlebotomus* and Carrion's disease, p.775-779. References, p.779. [Vector, *Phlebotomus verrucarum*]; Weinman, D. Reservoirs of *Bartonella bacilliformis* and asymptomatic human Bartonellosis, p.781-784. Bibliography, p.784.

Pennsylvania State Horticultural Association.

Proceedings of the eighty-third annual meeting... Harrisburg, Penna., January 20, 21 and 22, 1942. 113p. illus. State College, Pa., 1942. Partial contents.- Worthley, H. N. Peach borer control tests, p.59-61; Guyton, T. L. Report of gypsy moth in Pennsylvania in 1941, p.70-72, illus.; Steiner, H. M. Dormant sprays on peach, p.74-77, 79; Worthley, H. N. Studies of codling moth cover sprays in 1941, p.80-87, 89-92, illus.; Steiner, H. M. Apple sprays - dormant through petal-fall, p.93-95, 97.

Sandars, E.

A book of common insects. 79p. London [etc.], Oxford university press, [1941].

South Africa. Department of Public Health.

Annual report ... year ended 30th June, 1941. 80p. Pretoria, ...Government printer, 1941. Partial contents.- Malaria, p.24-27; Sleeping sickness, p.31-32; Yellow fever, p.45.

Speers, C. F.

The pine spittle bug (*Aphrophora parallela* Say). 65p. illus. Syracuse, N. Y., 1941. Literature cited, p.63-65. (N. Y. State col. forestry. Syracuse univ. Tech. pub. no.54) (Also Bul. v.14, no.2-a)

Stevenson, L.

Cattle lice and how to control them. 10p. illus. Toronto, Ont., 1942. (Ont. Dept. agr. Bul.420)

Thompson, H. C.

Asparagus production. 124p. illus. New York, Orange Judd publishing company, inc., 1942. References, p.118-122. (Diseases and insects, p.80-90.)

Union County Mosquito Extermination Commission.

Report ... for 1941. 8p. illus. Cranford, N. J., [1942?]

U. S. Tennessee Valley Authority.

Malaria, the story of an individual problem and a community problem. [48]p. illus. [Chattanooga, Tenn., 1941.]

Uruguay. Dirección de Agronomía.

Almanaque agronomico, 1942. 50p. illus. Montevideo, 1942.

Partial contents.- Mesa Carrion, F. Metodos de lucha contra algunas plagas agrícolas, p.47-50.

Uruguay. Dirección de Agronomía. Division Patología Vegetal y Entomología.

Enfermedades y plagas principales de la agricultura uruguaya.

19p. Montevideo, 1941. ([Pam.] no.55) Partial contents.- Plagas producidas por insectos, p.13-18.

Washington State Horticultural Association.

Proceedings of the thirty-seventh annual meeting ... December 1, 2 and 3, 1941, Wenatchee, Washington. 194p. illus. [n.p., 1942?] Partial contents.- Webster, R. L., and Carlson, E. C. Ovicidal value of light mineral oils for codling moth control, p.107-110. Literature cited, p.110. Discussion, p.111-112; Sisler, G. P., and O'Neill, W. J. Apple thinnings as a source of codling moth infestation, p.113-116. Discussion, p.117-118; Fallscheer, H., and Overley, F. L. Experiments and trends in spray residue removal, p.119-126. Discussion, p.126-137; O'Neill, W. J., and Fallscheer, H. A clean up codling moth experiment, p.139-141.

Wet, W. J. de.

Field experiments in baiting fliers of the brown locust [*Locustana pardalina* (Walk.)], with notes on physical ecology. 44p. Pretoria, 1941. Bibliography, p.44. (So. Africa. Dept. agr. and forestry. Sci. bul. no.31 [i.e. 231?]. Locust res. ser. no.10)

CURRENT LITERATURE

Selected References Compiled by The Staff Of The Bureau Of Entomology  
And Plant Quarantine Library From Publications Received In  
The Library Of The United States Department  
Of Agriculture, Washington, D. C.

Vol. 11

May - June 1942

No. 3

Entomology - Current Literature ceases publication with this issue. In the future, references on entomology will be listed in Section C of the Bibliography of Agriculture, which will be issued in four parts: Agricultural Economics and Rural Sociology; Agricultural Engineering; Entomology; and Plant Science.

This list is confined to new books on entomology and to selected periodical literature relating chiefly to economic entomology. Publications of the U. S. Department of Agriculture and of state experiment stations are omitted from this list because they are included in Monthly List of Publications, issued by the Office of Information, and in List of Station Publications, issued monthly by the Office of Experiment Stations. Publications of the state extension services, and all articles by members of the Department staff in outside publications are excluded; they are listed monthly in Agricultural Library Notes. The contents of the Journal of Economic Entomology have also been omitted because nearly all the technical workers receive personal copies. Periodical references to apiculture are not included.

Biles, R. E.

The complete book of garden magic. 307p. illus. Chicago, J. G. Ferguson, Publisher, 1942. Partial contents.- Chap.XVII. Plant diseases and pests, p.179-188.

Chandler, S. C., and Flint, W. P.

Control of roundheaded apple tree borer [*Saperda candida* F.]. 8p. illus. Urbana, Illinois, 1942. (Ill. Nat. hist. surv. div. Cir. 40)

Deyoe, G. P., and Ullrich, F. T.

Getting acquainted with agriculture. 736p. illus. [Danville, Ill., The Interstate printers & publishers, c.1941] Partial contents.- Chap.XI. Insects - friends or foes?, p.291-331.

Hawaii. Board of Commissioners of Agriculture and Forestry.

Regulations of the Division of entomology... Effective December 1, 1941. 17p. [n.p., n.d.]

- Little, V. A., and Martin, D. F.  
Cotton insects of the United States. 130 leaves. illus. Minneapolis, Minn., Burgess publishing co., 1942. References at end of chapters. Processed.
- Mazza, S., and Castro Rendon, E.  
Investigaciones sobre enfermedad de chagas. Casos de primer período de enfermedad de chagas, los más australes reconocidos en América. 19p. illus. Buenos Aires, 1941. Bibliografía, p.18-19. (Buenos Aires. Univ. Misión de estud. de patol. region. Pub. no.57)
- New South Wales. Department of Lands.  
Sixty-second report of the Department of lands, being for the year ended 30th June, 1941, and reports by the Prickly pear destruction commissioner, and the Western lands commissioner for the same period. 21p. Sydney, N.S.W., 1942. (Prickly pear control, p.21.)
- Puerto Rico. Commissioner of Health.  
Report ... 1940/41. 357p. illus. San Juan, P. R., 1942. Partial contents.- Palacios, L. D. Malaria division, p.63-68.
- Reading Public Museum and Art Gallery.  
Scientific publications. Numbers 2 and 3. 34, 5p. illus. Reading, Penn., 1941. Contents.- No.2. Fox, R. M. New Ithomiinae (Lepidoptera: Nymphalidae); No.3. Ferriere d'Almeida, F., and Fox, R. M. A revision of the genus Sais Hübner (Lepidoptera: Ithomiinae).
- Rio Grande do Sul, Brasil. Seção de Informações e Propaganda Agrícola.  
Boletim no.89, 91. Porto Alegre, 1941. Contents.- no.89. Costa Neto, J. P. da. Doenças da cebola (Allium cepa L.) I. Fusarium solani (Mart.) App et Wr. II. Outros organismos. 9p. illus. Bibliografía p.9; no.91. Guerreiro, M. G. O controle arsenical do banho carrapatida. 8p.
- Rogers, J. S.  
The crane flies (Tipulidae) of the George reserve, Michigan. 128p. illus. Ann Arbor, Michigan, 1942. (Mich. Univ. Mus. zool. Misc. pub. no.53)
- Victoria University of Manchester. Agricultural Advisory Department.  
Investigations on wireworms and their control. Report for the years 1939 and 1940, by H. W. Miles and M. Cohen. 31p. illus. [n.p. 1941?]
